REVO® PREMIER LOW PROFILE REEL

Redesigned from the ground up, the 5th generation of Revo low profile reels have been designed to provide best-in-class precision, power, and performance. The Revo Premier features an asymmetrical body design as well as our X2-Cräftic™ alloy frame and sideplate to provide the ultimate balance in weight, strength, and ergonomics. The EXD Concept design allows anglers to maximize their casting performance while our IVCB-6 braking system gives anglers ultimate control with nearly limitless braking options. With our D2 aluminum gear design, 95mm flat carbon handle, and up to 20lbs of Carbon Matrix drag, the Revo Premier has the torque and power you need in a workhorse reel.

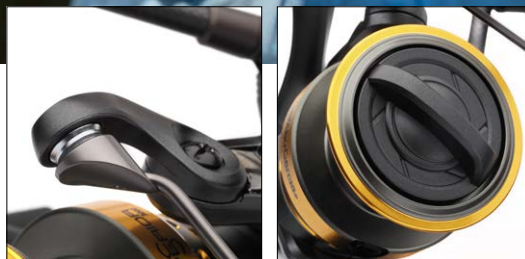

- 10 stainless steel ball bearings + 1 roller bearing provides smooth operation
- A-Symmetric body design allows for a more compact and ergonomic reel
- X2-Cräftic™ alloy frame for increased strength and durability
- EXD Concept Design to maximize casting performance
- IVCB-6 braking system delivers precise external adjustments for a wide variety of baits allowing anglers to easily fine tune and maximize casting distance
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- Drag Clicker - Smooth, audible drag feedback
- 95mm straight carbon fiber handle with oversized knobs for greater grip
- Duragear™ Gen II gear system provides a more efficient gear system while improving gear durability
- GullWing™ Sideplate Design

SUPERIOR SPINNING REEL

SUPERIOR stands for SUPER PERFORMANCE - and nothing less. This spinning reel is a true allrounder which is designed with the latest technology utilizing light weight materials. The result? A light weight, super smooth operating reel which continues to carry on what the first generation SUPERIOR reel stood for: being incredibly durable and reliable.

- 9 stainless steel bearings + 1 roller bearing
- A-Symmetric Carbon+Graphite frame
- A-Symmetric V-Rotor design
- AMG 2 gearing system
- Rocket line management™ system
- Carbon Matrix™ drag system
- Aluminium V-Spool Design
- Carbon handle with soft-touch knob design

MAX PRO SPINNING REEL

The Max Pro Spinning Reel is loaded with features inspired by the Zenon™ and Revo® series of spinning reels. Featuring an asymmetric body, V-Rotor and V-Spool design, the Max Pro is incredibly compact and lightweight. With a smooth and consistent Carbon Matrix drag, big fish don't stand a chance. Featuring a smooth 7+1 stainless steel bearing system and Rocket Line Management™ system, the Max Pro provides effortless operation.

- 7 stainless steel ball bearings + 1 roller bearing provides smooth operation
- A-Symmetric Graphite Frame and Rotor provides a lightweight and compact platform
- V-Rotor system allows for a more compact, weight reducing rotor design and provides ultra-low start up inertia
- V-Spool Design for a more compact, lighter weight spool
- Carbon Matrix™ drag system provides smooth, consistent drag pressure across the entire drag range
- Rocket Line Management™ system provides better control of all types of fishing lines
- Rocket Spool Lip Design™ allows better control of line coming off the spool
- Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip
- Aluminum handle with co-molded soft touch knobs for increased grip and comfort

MAX SX SPINNING REEL

The Max SX Spinning Reel takes inspiration from the Revo® and Zenon™ series of spinning reels, leveraging the asymmetric design, V-Rotor and V-Spool to give anglers a very compact, lightweight spinning reel. A 6+1 stainless steel bearing system and Rocket Line Management™ provide smooth operation and superior line management.

- 6 stainless steel ball bearings + 1 roller bearing provides smooth operation
- A-Symmetric Graphite Frame and Rotor provides a lightweight and compact platform
- V-Rotor system allows for a more compact, weight reducing rotor design and provides ultra-low start up inertia
- V-Spool Design for a more compact, lighter weight spool
- Rocket Line Management™ system provides better control of all types of fishing lines
- Rocket Spool Lip Design™ allows better control of line coming off the spool
- Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip
- Aluminum handle with co-molded soft touch knobs for increased grip and comfort

MAX X SPINNING REEL

The Max X Spinning Reel leverages technology from the Zenon™ and Revo® line of spinning reels such as the asymmetric body design, allowing for a more compact reel. To further reduce size, the Max X features a hybrid V-Spool and hybrid V-Rotor design. Featuring a 4+1 bearing system and Rocket Line Management™, the Max X Spinning Reel offers unparalleled performance.

- 4 stainless steel ball bearings + 1 roller bearing provides smooth operation
- A-Symmetric Graphite Frame and Rotor provides a lightweight and compact platform
- Hybrid V-Rotor system allows for a more compact, weight reducing rotor design and provides ultra-low start up inertia
- Hybrid V-Spool design for a more compact, lighter weight spool
- Rocket Line Management™ system provides better control of all types of fishing lines
- Rocket Spool Lip Design™ allows better control of line coming off the spool
- Machined aluminum braid ready spool allows braid to be tied directly to the spool without any slip

FANTASISTA NANO SPINNING ROD

Imagine a rod so light, fast and well designed that it almost feels like fantasy. That's what Fantasisita® Nano stands for - ultimate sensitivity, ultimate lightness, ultimate control. The Fantasisita® Nano rod is a special appearance - in both technical and aesthetic way. It's feather lightweight, ultra sensitive and extra-fast action Nanotechnology® blank offers a fishing experience you might have never experienced before. The deep azure blue coloured rod blank is combined with with dark metal tones, which are interspersed with matte black finished metal components. The AAA-class cork grips complete these rods and create the delicate and tranquil appearance which is finished off with beautiful subtle design details. A rod which is unique in every fiber of its existence.

- 40T Carbon + T1100G Nanotechnology blank
- Extra-fast blank actions with ultra fast recovery speed
- Fuji® Stainless Steel SiC anti-tangling guides
- Abu Garcia custom reel seat with anti-slip coating
- AAA-class cork handle grips
- Minimalistic design lightweight hook keeper

BEAST PRO LIVE VERTICAL CASTING ROD

BEAST PRO is the ultimate rod for the avid pike angler. Tough, strong, fast and powerful - but at the same time almost 20%(!) lighter compared to its predecessor. The actions have been improved by implementing a new style of rod blank designing which reduces weight, while increasing the power and speed of the rod at the same time. The result? A range of exceptional rods which are ready to battle Europe's mightiest freshwater predators. Are you ready to catch your new PB monster pike?

- Fast taper 36T Carbon + Nanotechnology blanks
- Blanks designed to be strong, fast, powerful - yet light in weight
- Fuji® Stainless Steel Alconite anti-tangle guides
- Fuji® ACS (cast) / IPS (spin) reel seats
- A-grade cork handle grips
- Ultra high class finish
- Including hook keeper

BEAST X TROLLING CASTING ROD

The BEAST X trolling rod range is the first rod range on the market with a dedicated design for (big) pike trolling. Reel seats, handle lengths and materials, hook keeper and of course the rod actions: all are specifically tuned for pike trolling.

The blank actions are fast to extra fast with slightly softer tips - creating the perfect cushioning for fishing planer boards and XXL lures, even in rough (windy) conditions. The strong backbone in these rods will help to convert more bites into hook-ups and provides enough strength to catch extra heavy bites from monstrous pikes.

These rods have been long-term tested by pro pike anglers from all over Europe to ensure they are perfected. Are you ready to take your pike fishing to the next level?

- Strong 30T Carbon blanks
- Specialized fast taper trolling actions
- Ideal to use with planerboards
- Seaguide® Stainless Steel XOG anti-tangle guides
- Ergonomic reel seat designs
- High density full EVA handle grips
- Easy fit rod holder design
- Strong EVA handle material prevents damaging in rod holder
- Shortened rear grips for more space in the boat
- Hook keeper for XXL lure hooks

CARABUS DELICATE2 SPINNING ROD

The Carabus Delicate spinning rods are designed to be your ideal partner for micro lure fishing. The super thin blanks have a beautiful progressive action, making accurate and far casts with micro lures possible and keeping fish well hooked during the fight. Very light in weight, built with high quality Fuji® components and equipped with high quality cork handle grips. When you need to present your micro lures with ultimate precision, the Delicate series should be your choice!

- Ultra light 30T carbon blank
- Responsive UL blank action
- Fuji® 'O' KL-type micro guides
- Fuji® SKSS reel seat
- High quality cork grip material
- ULS and LS models have solid carbon tips
- Designed for micro lure fishing

AION AINS SPINNING ROD

AION is a Japanese designed series of area game trout rods.

The Nano Technology carbon blank design achieves overwhelming lightness and sensitivity, as well as powerful torque with the perfect blank action to guide a hooked fish to the landing net. Equipped with very high quality components and world class finishing - AION will be recognized by (competition) area game anglers as one of the best rods in the market.

AIONS-602ULS+ - An ultra-sensitive automation hooking rod. It instantly detects the smallest bite when the lure is low in activity and the delicate solid tip automatically creates a reservoir of just a few tenths of a second from bite to hook, making it possible to hook up without making the fish feel uncomfortable with the lure.

AIONS-612UL - An allround rod with a tubular tip that allows you to directly control any lure. It is compatible with not only micro spoons but also lures with strong pulling resistance such as minnows and cranks. Ideal go-to rod!

AIONS-622L - A rod that excels in long-distance casting performance and crisp lure action. The greatest weapon for increasing the catch rate in large-scale ponds and high-pressure areas is the ability for long-distance casting. Adopts a blank design that produces high repulsive force, achieving overwhelming long-distance casting performance.

- 36T carbon + Nanotechnology blanks
- ULS+ model has solid carbon tip
- Fuji® Alconite KL-type micro guides
- Seamless integrated cork reel seat design
- A-quality cork handle grip
- Designed for area game trout fishing
- Developed & designed in Japan

DIPLOMAT DMPS SPINNING ROD

When you are looking for the ultimate micro lure rods for area game trout fishing - look no further. The Diplomat DMPS rods are the ultimate tools for this work. Incredibly light weight (-65grams), super sensitive and ultra thin blanks built with the best materials available and finished with the best and lightest micro guides in the world.

DPMS-612ULS - The trump card for tough games. A solid tip rod specialized for fishing micro spoons and tiny plugs with ultimate precision and care.

DPMS-612UL - An all-purpose model that can also be used for long casts. The blank is designed to enable perfect crisp lure action and ultra-sensitivity to catch even the slightest bite. This rod is the very heart of your strategy in tournament fishing.

DPMS-602LS - Power model for efficient fishing
 Higher butt power compared to other models increases landing speed after hooking a fish.
 Enables the use of spoons and plugs of various sizes. Solid tip enables the angler to hook the fish without repelling bites, even when using PE line. Ideal to catch fish close to the bottom.

- TAF 40T carbon + T1100G Nanotechnology blanks
- ULS and LS models have solid carbon tips
- Fuji® Titanium Torzite micro guides
- Seamless integrated cork reel seat design
- AAA-quality cork handle grip
- Designed for competition level area game fishing
- Developed & designed in Japan

DIPLOMAT WILDERNESS SURVIVAL 4PC COMBO

The DIPLOMAT® WILDERNESS SURVIVAL set is a complete fishing set including survival tools. It contains everything you need to catch and cook fish in remote places. All components have been carefully selected to be compact, of good quality, well matching and easy to use. Everything is packed in a compact and strong rod tube, which is convenient to bring wherever your adventure takes you. The lures included are perfect for catching a variety of fish species, such as trout and perch. If the fish are not interested in lures, there is also a float and hooks included which you can easily use with other bait like a worm. A caught fish can be prepared with the included multitool (knife) and a fire can be created with the firesteel tool. This DIPLOMAT® WILDERNESS set is ready to join you on your next camping, hiking or survival adventure!

- Compact and reliable rod design
- Light weight 24T carbon rod blank
- Front drag spinning reel with aluminium spool
- 4 bearings / 5.2:1 gear ratio
- Pre-spooled with high quality strong mono line
- Including tacklebox containing 3 lures, a float, hooks and swivels
- Including splint striker and fire steel
- Multitool with 10 different tools
- Paracord bracelet containing rope, compass and whistle
- Completely ready for survival adventures!

BEAST PADDLETAIL

Big rolling action and massive tail kicking combined with fantastic design, the Beast Paddletail sets the new standard in pike softbaits! Available in two sizes, the Beast Paddle tail is developed for cast and retrieve fishing over weeds and structure. Can be rigged both shallow and weighted, if you are targetting deep lying pike.

- Handbuilt look and feel
- Developed and tested together with Europe's top pike anglers
- Brand new screw-in eye concept
- Complete range for all European pike fishing

TOBY JOINTED

A new take on a timeless classic! The Toby Jointed has an enticing fluttering action, like its older brother, but combines this with improved castability and fantastic stability at high speed or in fast currents. This surely will turn some heads, both above and under the surface.

- Excellent castability
- Runs fantastic at high speed and strong currents
- allround for pike, perch, trout and seatrout
- Enticing fluttering action

NEOPRENE ROD BAG

This high quality neoprene rod sleeve with reel space protects your fishing gear well. The lengths indicated are for 2 section (2 piece) fishing rods. The zipper is on the top side, which prevents your line getting tangled with it. It's equipped with an adjustable shoulder strap. It is ideal to store your rod and reel safely or to protect them while travelling.

- Made of thick neoprene material for good protection
- Including reel space
- Double zipper
- Adjustable shoulder strap
- Available in 2 sizes

POWERBAIT® NESSIE

Introducing a soft glide bait, the Berkley Nessie will take an advanced tool / technique and open the door for entry level anglers while simultaneously unlocking new uses for anglers experienced with glide bait style fishing. Skip it, slide it, and cast it without fear where traditional glide baits previously have not been able to reach.

- Soft bodied glide bait design featuring PowerBait® flavor
- Mesh reinforced joint provides durability while allowing for free range of motion
- Stabilizing fins for consistent action
- Patent pending hook retention clip keeps treble hook secured to body
- Premium features and components
- Sticky sharp Fusion19™ treble hook
- Custom painted forage matching finishes
- Slow Sinking
- Pro Design Mike Iaconelli

DEX THUMPER

This floating crankbait does as its name suggests! the Thumping action of the Thumper can be felt clearly on the rod tip. Due to the DEX weight ramp system it flies straight and true, making it perfect to hit those honey holes in between weeds and under overhanging branches. Use it for steady retrieves, or stop-and-go techniques.

- Floating
- Weight Ramp system
- Accurate casting
- Thumping action with a lot of water displacement
- Runs straight at higher speed

DEX STUNNA 100

DEX STUNNA 100 PLUS1

DEX STUNNA 100

The highly anticipated down sizer to the Stunna 112! The Stunna 100 is the perfect twitch bait for all European twitchbait applications. From slow winter fishing, where the perfect left-right darting action combined with a dead slow fall on the pause triggers bites when all other baits fail. Fish it high in the water in summer, with aggressive rod snaps in summer and drive all those active predators crazy.

- Maximum darting action
- 180-degree head turns and side flash when jerked
- Dual brass weights
- Tungsten weight transfer system
- Fusion19 EWG trebles
- Super slow fall rate of 30cm per 8 seconds

NEW

DEX STUNNA 112 PLUS2

When even the Stunna 112+1 doesn't cut it, the Stunna 112+2 is your bait! With a diving depth of 3 to 3.5 meters, whilst still maintaining a perfect twitching action this bait is one of the most highly anticipated by our pro team. Testing results have been phenomanol in both Europe and the US. You can fish it deep and fast with hard snaps of the rods, or low and slow to make it break out to either side. finally there is a twitch bait that reaches the fish and still has the perfect action!

- Maximum darting action
- 180-degree head turns and side flash when jerked
- Dual brass weights
- Tungsten weight transfer system
- Fusion19 EWG trebles
- Super slow fall rate of 30cm per 8 seconds

YAGI V2 SPINNING ROD

The YAGI V2 is the next generation of our popular YAGI rods. All blanks have been reworked to improve the already fast action and the sensitivity of these rods. The rods are equipped with light weight K-type guides which prevent windknots and which make effortless casting possible. The new ergonomic designed reel seats make the rods easy to hold - all day long. YAGI is designed for the modern predator angler who is looking for sensitivity and fast action for a friendly price.

- Strong and light 24T carbon rod blank
- Slim design blank with fast action
- Responsive action
- K-frame + micro guides
- EVA split handle
- Screw-down ergonomic reel seat
- Aluminium butt cap

PLATINUM X

The Greys Platinum X fly line range features a range of models to put your fly in the zone time and again. Standard floating lines are designed in a Tri-colour format with a medium length head and full-size heavy design that allows all anglers to fully exploit modern fast action fly rods whilst maintaining delicacy. The slick, smooth coating is low in memory with excellent handling feel and a low diameter running line. Also available as a midge tip with a short intermediate tip section, ideal for fishing both nymphs and just sub surface with “washing line” tactics. All sinking models in the Platinum X range of fly lines are twin colour with an intermediate density running line and aggressive full-size heavy distance casting taper, ideal for both boat and bank tactics. For the technical river angler, a unique twin taper WF line is also available. Featuring a delicate 9g extended WF profile that can be reversed and used as a level Euro Nymph line complete with an indicator mono core and fitted micro ring.

- Comprehensive range
- 105ft overall length
- Dual- and Tri-colour models
- Slick supple coating
- Welded loops
- Eco-friendly packaging
- Designed in the UK

PLATINUM FLOAT

The Greys Platinum range of lines with its shorter headed format is designed to allow all anglers the ability to generate high line speed and easy distance with the minimum of false casts, even in areas of limited back cast space. A full-size heavy head design and low diameter running line ensures long easy casts and positive turn over with the minimum of effort. Smooth slick coatings and excellent handling feel make these lines a pleasure to fish with. The Platinum is designed as a twin colour line showing the optimum shoot point and is fitted with a slim, neat, welded loop for ease of leader attachment. Included in the Platinum range is a specialised pike taper with a powerful front taper and over weighted head to handle the largest of pike flies.

- Focused range
- 90ft overall length

FULL FORCE PELAGIC BAITCAST ROD

Pelagic fishing for catfish has taken the sector by storm. More and more people fish pelagic with heavy sinkers, sometimes up to 300g – just to keep the bait in the narrow view of a fish finder. And that is where this new rod comes in – it’s not too long, extremely powerful, able to carry heavy sinkers or lures and still set the hook properly.

- Original Fuji TCS trigger reel seat (double locked)
- SeaGuide® guides
- Double-stone tip guide
- 30TC solid carbon blank
- Lure weight: 100-300g
- Lifting power up to 20kg

1632409

FULL FORCE SPIRAL BAITCAST ROD

This super-tough, solid carbon baitcasting rod is ideal for vertical jigging for catfish using large multiplier reels thanks to spiral-wrapped guides and a trigger reel seat. The big advantage of spiral-wrapped guides is that the line primarily travels underneath the blank, eliminating torque and improving overall balance.

- Original Fuji TCS trigger reel seat (double locked)
- SeaGuide® guides
- Double-stone tip guide
- 30TC solid carbon blank
- Casting weight: 100-200g
- Lifting power: up to 19kg

1632411

FULL FORCE VERTICAL BAITCAST ROD

When fighting the biggest monster catfish, you need raw power to give you the upper hand. This beast of a rod will deliver that to you. Featuring more than 18kg of lifting power, this rod remains lightweight in the hand and perfectly balanced when it comes to feel. Equipped with a trigger reel seat for vertical jigging with multiplier reels such as the MADCAT Full Force Conventional reel, this rod is a top performer that is virtually indestructible.

- Original Fuji TCS trigger reel seat (double locked)
- SeaGuide® guides
- Double-stone tip guide
- 30TC solid carbon blank
- Casting weight: 75-175g
- Lifting power: over 18kg

MX4 PRO SPINNING REEL

Take your fishing to the next level without the astronomical cost with the MX4 PRO.

This collection of quality spinning reels features strong and lightweight graphite bodies and rotors as well as incredibly smooth operation thanks to precise gearing and 8+1 ball bearings. The reel allows for accurate and effortless casting all day long thanks to its perfect line lay, while it also gives you precise control over the fight thanks to its rubber-sealed felt drag washers. A CNC machine-cut aluminium handle further reduces weight and is finished with a grippy, ergonomic rubber knob.

Choose from one or five sizes and two different gear ratios in this range of reels that offer a staggering array of premium features and for a price that makes it an easy choice.

- Lightweight graphite body and rotor
- Available in 5.1:1 or 6.2:1 gear ratio
- 8+1 ball bearings
- Semi-slow oscillation
- Infinite anti-reverse system
- Aluminum double-anodized spool
- Aluminum CNC screw in handle
- Flat TPE handle knob
- Sealed drag system
- Precise felt drag washers
- Thick bail

RETALIATE LEVER DRAG JIGGING REEL

Whether it's prehistoric monsters of the Arctic depths, or speedy warm water predators of the Mediterranean, the Penn Retaliate lever drag jigging reel is the weapon that you cannot go into battle without.

As you would expect from PENN, every single part of the Retaliate jigging reel has been manufactured to precise standards using only high-quality materials. Strength and durability come as standard thanks to a fully forged aluminium body, a CNC-machine aluminium spool, and stainless steel main and pinion gear.

The compact size of the reel, achieved by integrating the palm side plate and the frame, puts that all-important drag lever within easy reach, allowing you to easily stop your bait on the drop and get straight into jigging at whatever depth you choose.

Our Dura-Drag system and 8+1 shielded stainless steel ball bearings complete the reel and ensure long-lasting performance in almost any harsh saltwater conditions. Don't go into battle without it.

- Full forged Aluminium Body and side plates for ultimate durability
- Machined Aluminium spool
- Stainless steel main and pinion gear
- Pull-To-Turn Pre-set Knob Eliminates Accidental Changes to the Drag
- Dura-Drag™ drag system
- Easy to grip jigging handle knob
- Handle assembly possible at two lengths
- Supplied with additional oval shaped handle knob
- 6 shielded stainless steel ball bearings
- Line Capacity Rings

FATHOM® ELECTRIC REEL KIT

The Fathom Electric is an innovative, first of its kind reel. Built on the legendary platform of the Fathom II Lever Drag reels, the Fathom Electric powers your game to the next level. Featuring a fully integrated and replaceable Lithium Ion battery pack, you never have to be worried about being tied down with cords or limited to spots with a plug. The Fathom Electric features a true digital line counter based on line diameter inputs, which powers the autostop feature for true hands free retrieval, with override feature if you wish to manually run the speed control. The powerful brushless motor easily handles as much drag as you wish to run, with speeds capable of running everything from chicken rigs to sailfish kites. Kit includes reel, battery and charger.

- Integrated lithium ion battery
- Variable speed control knob
- Autostop feature for hands free retrieve
- LED Display
- Programmable line diameter for accurate line counter
- Line Guide allow knots and swivels to pass easily
- Spool tension knob prevents overruns when reel is in freespool
- IPX6 sealed motor and battery compartments
- Backup handle engages with the push of a button
- 12V System
- Kit includes (1) reel, (1) 5AH lithium ion battery, (1) Single Battery Charger

NEW SIZE

AUTHORITY® SPINNING

The PENN® Authority™ is the new PENN® standard. Focusing on best-in-class smoothness and sealing, these reels will have a size and gear ratio for every scenario. Utilizing CNC Gear technology™, the precision-cut stainless steel gear train paired with the Dura-Drag™ system, will give you the power to tame anything from within the deep blue. The IPX8 sealed body and spool are top of the line, ensuring that no water will reach the internals, even if submerged. Whether fishing the creeks or in the blue water, the PENN® Authority™ sets a new standard for durability and performance.

- Submersible IPX8 Sealed Body and Spool Design
- Full Metal Body, Sideplate, and Rotor
- CNC Gear Technology with Stainless Steel Main and Pinion Gears
- Sealed Slammer® drag system with Dura-Drag™
- 12+1 Stainless Steel Bearing System
- Leveline® Slow Oscillation System
- Spare Hypalon Handle Knob

BATTALION SOLID LIGHT JIGGING K-TYPE ROD

The PENN Battalion Solid Jigging rod is designed to give perfect control over your jig. The unique Solid Spiral Armor technology uses reinforced spiral shaped fibres in the blank, which creates neverseenbefore strength in a carbon rod. Due to the high density of the carbon, the rod still provides excellent sensitivity and overall light weight that is helped by components such as Fuji Alconite guides.

- Solid Spiral Armor blank technology
- Incredibly slim blanks with unbelievable power
- Fuji K-type guides
- Fuji Alconite rings
- EVA handle

BATTALION SOLID JIGGING SPIRAL GUIDE ROD

The Solid Spiral Armor blank technology at the core of this rod will provide you with power, sensitivity, and a longlasting rod for many years to come. Solid Spiral Armor technology is unique to PENN and gives the rods unbeatable strength while keeping weight to a minimum. The Palm Support System (PSS) reel seat is perfect for controlling the rod during hard fights and is very comfortable. The short length of the rod offers incredible lifting power, which is needed for the biggest fish, and also means the rod is comfortable to fish all day long. The spiral mounted guides help you stay in control during the fight and give better direct pull strength.

- Custom designed for Scandinavian boat fishing
- Solid Spiral Armor blank technology
- Spiral mounted guides for improved control during fight
- Fuji Alconite guides
- Highdensity EVA handle for controlled grip
- Palm Support System (PSS) reel seat
- Short rod for incredible lifting power

BATTALION SOLID HYBRID BOAT ROD

The Solid Spiral Armor blank technology at the core of this rod will provide you with power, sensitivity, and a longlasting rod that will help you catch lots of different species using different styles for many years to come. Solid Spiral Armor technology is unique to PENN and gives these rods unbeatable strength while keeping weight to a minimum. The DPS reel seat and the length of the handle make this rod good for both multiplier and fixed spool reels. The Fuji guides ensure that this rod will last and catch many fish. These rods are truly unique and are perfect for fishing for mixed species with the heavier versions even capable of stopping huge blue sharks and halibuts.

- Solid Spiral Armor blank technology
- Incredibly slim blanks with unbelievable power
- High density EVA handle for controlled grip
- Fuji saltwaterproof guides
- Fuji Alconite rings
- Can be fished with multiplier and fixed spool reels

SQUALL II VIKING EDITION BOAT ROD

Is it possible to improve upon a classic? The PENN Squall Viking Edition shows that the answer to that question is most definitely yes. This incredibly strong series of rods is specifically designed for Scandinavian waters where the big cod, coalfish, and halibut roam. Featuring a super-strong backbone but perfect feel thanks to the layout of the carbon fibres, these rods also feature reinforced double-lock reel seats, meaning they won't budge a millimetre. The guides are extra strong and can take a beating, even from your potential personal best fish. A high-density EVA grip ensures you have a firm hold, so no slips will occur at the vital moment.

- Strong carbon blank
- Fuji saltwater proof guides
- Graphite DPS reelseat
- High density EVA grip
- Cross in gimbal

REGIMENT IV PRO BOAT ROD

The Regiment IV Pro Boat rod range covers all the bases from its lighter 12-20lb model through to the heavy-duty 50lb version. Each rod in the range features a 32-ton carbon blank in combination with SLS3 technology, which makes them very lightweight and very thin in diameter, but with incredible power reserves. Because of the super sensitive tip, you will feel and see every bite, but you can instantly put real pressure on a big fish thanks to an impressive backbone. The full cork handle gives perfect grip, and the heavy-duty DPS reel seat ensures your reel will be fully locked on. Designed to handle both braided and mono lines and fitted with the best SeaGuide guides.

- High modulus 32T carbon blank
- SLS3 blank construction
- Premium grade cork handle
- Saltwater-proof SeaGuide XE-SS guides
- Heavy-duty DPS reel seat
- Cross gimbal

1632578

REGIMENT IV BOAT ROD

Regiment IV Boat rods incorporate SLS3 blank assembly into three different models, each providing a very thin diameter blank making for powerful and lightweight rods that are more ergonomic. Engineered to be fished with both mono and braided fishing line because of the high quality SeaGuide guides, these rods are built to dominate any fish. The high-density and tapered EVA handles will provide perfect grip even under wet conditions, while a heavy-duty reel seat ensures your reel will be fully locked on. No matter whether you're targeting flounder and flatfish with bait, or monster halibut with lures in Norway, the Regiment Boat series will bring exactly the help you need to catch the fish of your dreams.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Heavy-duty DPS reel seat
- Cross gimbal

1632573

REGIMENT IV INNER BOAT ROD

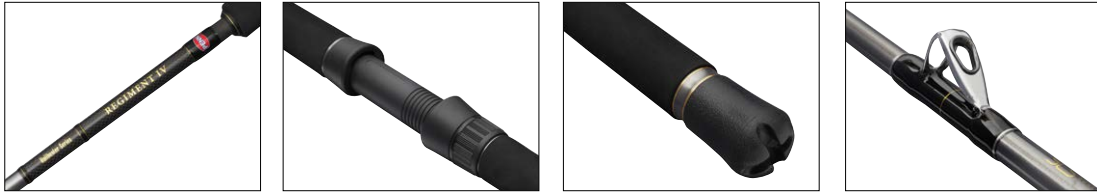

Regiment IV Inner Boat rods incorporate SLS3 blanks, which ensure a thinner and lighter design that's more ergonomic to use. What makes these rods unique is that the line runs through the blank, preventing line from being damaged while in transport and reducing overall weight. The fast-tapered blanks make for a very sensitive tip that ensures you won't miss any bites. You can apply strong pressure to big fish almost instantly thanks to the overall solid backbone of the rod.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides

REGIMENT IV HALIBUSTER ROD

The Regiment IV Halibuster rod comes in two different weight classes: a 20-30lb and a 30-50lb version. Both are designed to be the ultimate for targeting halibut in Norway because of the special action that combines super-sensitive tip with ultra-strong backbone. These rods are capable of putting some real pain on a 2m+ halibut, helping you catch your fish of a lifetime. The blank incorporates SLS3 blank assembly, providing a very thin diameter for better ergonomics when fished for long periods. Each rod is finished with only the best SeaGuide guides, which are fully saltwater-proof and very strong.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Ergonomic, high-density EVA handles

1632575

REGIMENT IV JIG CAST ROD

The PENN Regiment IV Jig rods incorporate SLS3 blank assembly, providing a very thin diameter blank that's lighter and also more ergonomic to use. The palming reel seat makes fishing with a multiplier or low profile reel as comfortable as it can get. The relatively short length of these rods gives great leverage – ensuring you can apply maximum pressure to a monster halibut or cod. The front grips are made of high-density EVA with a triangular shape to give the best possible grip. These rods are finished with only the best SeaGuide guides, which are fully saltwater-proof and very strong, making them able to handle the biggest cod or halibut swimming in the deep sea.

- High modulus 30T carbon blank
- SLS3 blank construction
- Triangular front EVA grip for extra grip
- Saltwater-proof SeaGuide guides
- Heavy-duty DPS reel seat
- Cross gimbal

1632579

REGIMENT IV BOAT TRAVEL ROD

The PENN Regiment IV Boat Travel five-piece rods are specially designed for the travelling angler. The five-piece construction ensures they have a super-short transport length, meaning they can easily fit inside a suitcase. They are also supplied with a Cordura hardcase tube for further protection in transit.

Each rod in this series is constructed from 30-ton carbon in combination with SLS3 technology, resulting in low weight and thin diameter blanks with incredible strength. These rods are designed to handle both braided and mono lines and are fitted with the best SeaGuide guides. The metal reel seat with locking nut ensures a secure hold for your reel even during fights with big fish. If you are looking for a super strong, all-round boat rod with short transport length, the Regiment IV Boat Travels are the way to go.

- High modulus 30T Carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Ergonomic, high-density EVA handle
- Cross gimbal
- Metal reel seat with locking nut
- Hardcase Cordura tube

1632574

REGIMENT IV UPTIDE ROD

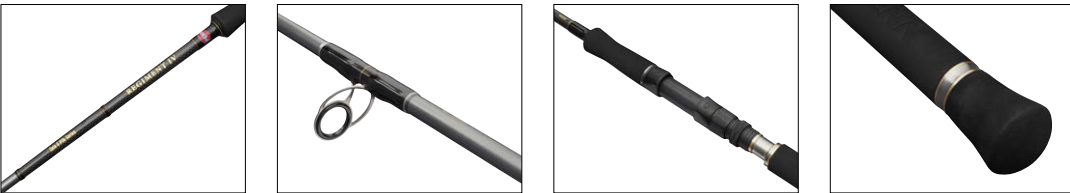

The Regiment IV Uptide is built on the proven short butt/long tip format that gives a very smooth action. The rod incorporates SLS3 blank assembly, resulting in low weight and thin diameter blank with incredible strength. The tip has just the right amount of give to sit nicely in the tide while still registering small bites as well as slack liners. The tip blends seamlessly into the mid and butt sections to give a fast but progressive action, which just applies more power the harder a fish pulls.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Ergonomic, high-density EVA handles
- Rubber bulb

REGIMENT IV SPIN/PILK ROD

The Regiment IV Spin and Pilk rods cover a wide range of popular saltwater fishing scenarios: from fishing with lures or baits for seabass through to using heavy pilks in the deep sea. The rods incorporate SLS3 blank assembly, resulting in low weight and thin diameter blanks with incredible strength. Because of the fast taper, these rods have a sensitive tip followed by a powerful backbone, making sure you can fish lures in the best possible way but also have good hookset and enough body to fight a big fish. All models are finished with the best saltwater-proof SeaGuide guides and in combination with the special tapered EVA handles and strong DPS reel seats – they will never let you down.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Ergonomic, high-density EVA handles

REGIMENT IV BASS SPINNING ROD

The PENN Regiment IV Bass spinning rods are constructed from 30-ton carbon in combination with SLS3 technology, resulting in low weight and thin diameter blanks that boast incredible strength. They are designed to handle both braided and mono lines and are fitted with the best SeaGuide guides. The blanks can handle any kind of lure fishing. The sensitive tip section gives great bite detection and also helps to launch smaller lures, while the power that is built up in the mid and butt sections gives everything you need to give a good hookset and halt a big bass. An anti-slip shrink rear handle provides extra grip during wet conditions, while the front EVA handle makes fishing very comfortable.

- High modulus 30T carbon blank
- SLS3 blank construction
- Saltwater-proof SeaGuide guides
- Ergonomic, high-density EVA handles
- Rubber bulb

CONFLICT ELITE TOPWATER SPINNING ROD

To cover the growing demand for High-end Inshore rods, we hereby proudly present you the PENN Conflict Elite rod series. This series of Japanese style inshore rods has exceeded many seabass and bluefish angler's expectations. The incredible lightweight High-modulus 40T Nano Infused carbon rod blanks are extremely lightweight and provide an excellent balance of stiffness and sensitivity. The blanks are finished with Carbon X-Wrap technology to make the blanks even stronger and provide better casting accuracy. The progressive tip action of the rod is perfect for working your topwater lure, while the beautiful backbone in the mid- and lower part will help to set the hook properly and keep the fish out of any structure. The best anti-tangle FUJI SiC K-type guides and FUJI reel seats give are making these rods lightweight yet very durable. This PENN Conflict Elite inshore topwater rod has been designed with the help of a great team of inshore anglers and covers all topwater applications along the coast.

- The perfect Seabass rod for topwater lures
- FUJI SiC K-type SW proof guides
- High Modulus 40T Nano Infused Carbon blank
- Carbon X-Wrap Technology for extra strength and better casting accuracy
- Progressive tip action
- Moderate-fast action super sensitive blanks
- Lightweight rods with beautiful backbone
- Japanese blank design

RETALIATE X SOLID LIGHT JIGGING SPIN ROD

The PENN® Retaliate X Solid Light Jigging spin rods are designed to give you perfect control over your jig. The unique Solid Spiral Armor technology uses reinforced spiral shaped fibres in the blank, which creates a blank with never-seen-before strength in a carbon rod. Due to the high density of carbon, you still have a rod with great sensitivity and with light Fuji Alconite guides, it remains extremely lightweight. The reversed guides will lower the risk of entanglement and the strong backbone of this light rod will make sure you are in control and not the fish.

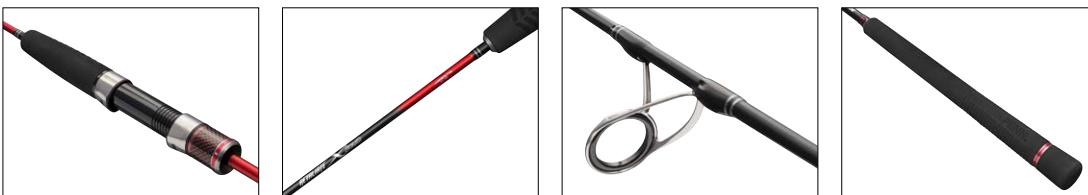

- Solid Spiral Armor technology blank
- X-Wrap carbon technology for a responsive and powerful blank
- Fuji stainless steel guides with Alconite rings
- Fuji VSS-type (120G model) and DPS-type reel seat (200G model) for an ergonomic hold
- EVA handle

MARINE BRIGADE TROLLING ROD

The PENN Marine Brigade offshore series of rods is designed to endure many hours of exposure out on the open ocean. Specifically made for trolling and drifting, the Marine Brigade trolling model is not only an eye-catcher but designed to be technically perfect. The rod features an extremely strong carbon blank and is equipped with heavy-duty SeaGuide guides – it can handle the biggest fish out there in the deep blue.

A unique feature is the under whipped, spiral-mounted guides – this prevents the line touching the blank of the rod under heavy load. The aluminium reel seat is equipped with a double locking-nut, to ensure the reel is always safely secured. The high-density EVA provides perfect grip, while the slick butt prevents the butt getting damaged in a rod holder. The aluminium gimbal provides added strength and a secure connection during a fight.

- Saltwater-proof, heavy-duty SeaGuide guides
- Under whipped, spiral mounting (left)
- High-density EVA grip
- Full aluminium reel seat with lock nut
- Slick butt with metal gimbal

INSPIRE CM90

Introducing the PROLOGIC Inspire CASTING CM90 carp fishing line, the perfect addition to any angler's tackle box. Designed with the highest quality materials, this line is made from frosted anti-reflective moss green color monofilament polymers that feature a high-quality coating for unbeatable durability.

Thanks to its advanced construction, this line boasts a denser build that sinks better and settles quickly, making it the ideal choice for carp fishing enthusiasts who demand the best from their gear. With its excellent casting performance, abrasion resistance, and superior strength, this monofilament line has been optimized to provide anglers with the ultimate in handling properties, making it easier than ever to reel in even the biggest catches.

Whether you're a seasoned pro or just starting out in the world of carp fishing, the PROLOGIC Inspire CASTING CM90 is sure to impress. With its fantastic combination of features and top-notch construction, this is a line that you can rely on for years to come. So why wait? Upgrade your fishing game today with the PROLOGIC Inspire CASTING CM90 carp fishing line!

- Made from high-quality frosted anti-reflective moss green colour monofilament polymers with a durable coating.
- Denser build allows for better sinking and quick settling, making it ideal for carp fishing.
- Excellent casting performance, abrasion resistance, and superior strength
- for optimal handling properties.
- Designed to provide unbeatable durability, ensuring that this line will last for years to come.
- A must-have addition to any angler's tackle box, whether you're a seasoned pro or just starting out in the world of carp fishing.

FAZOR SPINNING REEL

Durability and smoothness are the key drivers for the new Savage Gear Fazor spinning reel. Don't get yourself fooled by the stealthy design, since this workhorse will seriously surprise you! Our special patented stainless steel Precision Cut Gearing, combined with a strong Carbon Reinforced Composite body and rotor are making this reel extremely lightweight and durable. The 7+1 sealed stainless steel ball bearing system and 1 piece SST handle are eliminating every bit of play in the reel. By using our unique patented carbon drag fiber washers system, we created a super smooth and durable drag system that can be tuned very precisely, being essential for fighting a trophy fish. The Savage Gear FAZOR is available in sizes 1000-C5000, with several high speed options, offering all the right sizes for all freshwater and inshore species.

- CRC Body and Rotor
- 7+1 Stainless Steel Ball bearing system
- Precision Cut Gear à precisely cut machined gearing for a super smooth gear feel
- Tapered Spool Lip Design for maximum casting distance and preventing wind knots
- Duragrease and Duraoil to ensure a perfectly smooth drag and gears
- Friction Control System Carbon Drag washers with Hydro Sealed HS-Drag
- 1 piece SST handle à super strong CNC machined 1 piece handle design
- Rubberized paddle knob on sizes 1000-2000, Rubberized T-handle on sizes 2500-4000 and unique metal/rubberized power knob on C5000 model

ORANGE LTD SPINNING REEL

The limited Orange LTD reels are designed to perfectly match with our Orange LTD rods – what’s better than a perfectly matching , real SAVAGE combo! The body and rotor are constructed from a strong yet lightweight GRC material, while the aluminum CNC machined SST handles offer maximum strength. These reels include a host of other exclusive innovations such as our proprietary DuraGrease, CNC machined aluminum spools and soft-touch handles. However, the best trick is in its ultra-smooth Friction Control Drag system that uses carbon fibre washers, offering unrivalled power and silky smoothness. It will make playing a fish as much of a joy as it is to finally get them into the net.

- Perfectly matching our Orange LTD rods
- Graphite Reinforced Composite (GRC) body and rotor
- DuraGrease
- 8+1 steel ball bearings
- SST machined aluminum handle
- Soft-touch handle knob
- Aluminum spool
- Carbon drag system

DEVIATOR TAIL

A great hybrid lure, with a superb kicking frantic action, with the paddle tail and a crazy glide action with the mini curl tail. The two tie points enables you to work the lure, from super shallow to a medium depth. The Unique Cross jaw lock tail system, holds the tails in perfect place and allows for a super-fast and secure change of tails or change of direction of the tail. So, you can fish the lure, with tail up or down, creating quite a different working depth and movement pattern. All in all, a super versatile tail bait – with long cast system, giving you a great search bait! Just like our Deviator Swim, this is going to be a classic Pike lure!

- Versatile Tail bait, build on our Deviator Frame
- Double tie points for shallow and medium depth
- Cross jaw lock tail system
- Long cast system
- Photo printed details
- Built-in Rattle
- 2 scented tails supplied, Paddle tail and mini Curl tail
- SGY 1X BN treble hooks

3D PERCH RTF

Perch are one of the key prey species for specimen pike and are found in nearly all waters around Europe; that's why we designed this RTF (Ready to Fish) Perch. Based on a scan of a real perch, with extremely realistic details, Photo Chrome skin print and added DNA scent. It does not get more natural than this! Due to the combination of the fast sink rate, soft PVC and light but big paddle with a glass rattle, this bait will always swim on the fall, even with tension on the line! Therefore this bait can be fished both in shallow waters, pointing your tip slightly up, but also used for grinding in deep water for real monster pike. The big paddle tail makes the lure rock seductively and the rattle in the tail sends out provoking clicks to draw in curious predator fish and help to locate the bait in more murky water.

- 3D Scanned details
- Photo printed colors
- Rolling and kicking action
- Strike-Triggering scent
- Rattle slot in tail with mounted glass rattle
- 3 sizes available; 12/17/20cm

3D TROUT RATTLE SHAD

The combination of our detailed Photo Chrome skin print and strike-provoking scent on this lure is next level. The details are so lifelike any predator fish worth its salt won't be able to resist a full committed attack. Each lure's color design has been tested and fine-tuned to perfection, and the added DNA scent will give you an extra edge, even when conditions are tough. The superb rolling and rattling action is making this incredible lure even more effective. Due to the perfect sink rate, the lure will always swim perfectly, even on the drop. Pre-rigged with our glass rattle in the tail.

- 3D Photo Chrome skin print
- Strike-triggering scent
- Tail slot with glass rattle
- Superb rolling and kicking action
- Integrated X-Strong J-hook

COLLAPSER

Forward facing sonar technology is booming and challenged us to create the perfect softbait for this fishing style for specimen zander and pike. The super soft PVC material scoop-shaped paddle moves at the lowest speed imaginable, giving a fantastic rolling and double kicking action. Combined with the noisy glass rattle and extremely lifelike colors this softbait is absolutely irresistible for monster predators. The special side-angled notches have 2 functions: 1. giving extra vibration in the water, but most importantly: 2. the softbait will COLLAPSE when getting a bite. Due to the angle of the notches, the tail will always fold downwards ensuring the tail will never hook into the treble, maximizing your hookup ratio.

- Especially designed for forward facing technology/pelagic casting fishing styles
- Moves at extremely low speed
- 'Collapse' design with double angled notches for maximizing hook-up ratio
- Rolling and kicking action
- Strike-triggering scent
- 3D Downlook eyes
- Rattle slot in body with mounted glass rattle
- Realistic painted colors
- 3 sizes available; 14/18/22cm

CONGER EEL

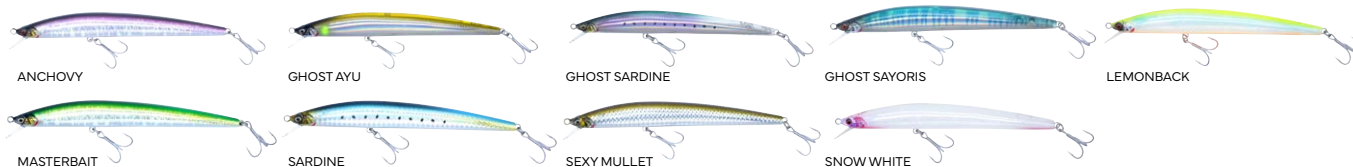

Conger eels may become formidable predators when they reach adulthood, but to get to that stage, they have to take their turn being prey in the ‘Savage’ circle of life. Juvenile conger eels are slender and slow, making them easy prey for many other saltwater predators – prey that you can now take advantage of with the Savage Gear Conger Eel. Made to be easy to fish and to bring bites no matter what, this little fellow can be dropped, retrieved, jigged fast, or jigged slow – whatever you choose, its incredible curly tail will work wonders. The lure also features an internal rattle to call out to predators from a distance – once they’re up close, they won’t be able to resist. Made in a variety of sizes and equipped with heavy-duty stainless steel hooks and added scent for attraction, this lure will become a must-have for inshore and offshore anglers alike. Ideal for snapper, cod, grouper, halibut, amberjack, barracuda, coalfish, and more – it has no limitations regarding fish species.

- Super strong, heavy-duty stainless steel hook
- Built-in rattle within the jighead for extra loud rattling
- Strong tail action
- Squid scented
- Real imitation of a conger eel

WANDER JERK

This sleek and long-casting minnow is about to revolutionize the way you fish – welcome to the Wander Jerk. Every aspect of this state-of-the-art lure has been meticulously crafted to help you get strikes from even the most cautious of fish in the most challenging of conditions. An advanced tungsten weight system allows you to cast long distances with ease and accuracy and ensures a stable flight and unparalleled balance in the water. With each jerk, this lure subtly tilts towards the bottom, causing great resistance against the water, which means its action will never fail even in turbulent conditions. The hexagonal lip design gives the lure an irresistibly lively action during the retrieve or with jerking motions. While primarily tailored for sea bass, this versatile lure excels in various weather conditions and fishing locales, proving equally effective for bonitos, barracudas, bluefish, leerfish, and many more. Hold on tight to your rod because the Wander Jerk is about to take your angling adventures to new heights.

- Advanced lip design for lively jerking action
- Tungsten weight system for exceptional casting prowess
- Slim, captivating body profile
- Medium rattle sound for added attraction
- Equipped with super-strong and durable saltwater SGY3X hooks

NEW SIZE

BALL JIGHEAD

Success in fishing comes down to attention to detail – even with small items like jig heads. That’s why we designed these Savage ball jig heads, featuring ultra-sharp, forged high carbon steel wire hooks with nano points and micro barbs. Each hook size has also been carefully designed with the perfect wire diameter for optimised strength and penetration. The precision moulded round heads come in a range of sizes suitable for a wide selection of soft lures. They also feature three different types of body holders, to make sure your soft lure is securely held in place no matter what you’re fishing for.

MONO SPINNERBAIT

Create your own spinnerbait in a Flash! This simple, but unique little arm, allows you to construct your own combination spinnerbait, adding on your lure of choice! The blades will work perfectly with different styles of lures, like Swim-jigs, swim-baits, glide-baits and even crankbaits! The Flex in the arm, creates a great pulse and flashing effect and collapses, when the fish strikes giving a super hook up rate! Build with high quality components, Stainless Steel blades, Regenerator Mono Line and Carbon steel needle snaps.

- Clear Regenerator spinnerbait arm
- Pulsing and flashing action
- Easy changeable lure
- 50kg+ Pull test strength
- Collapses on strike

NEOPRENE ROD TIP/BUTT PROTECTOR

Soft neoprene rod tip and butt protectors, connected together with an adjustable elastic tension strap. This greatly aids rod security and helps to prevent rod chatter while in transport. Suitable for nearly all 2pcs rods, from 1.80m up to 3.00m! The connection strap also doubles up as a convenient shoulder strap allowing a single rod to be carried over the shoulder securely.

- Suitable for 2pcs rods from 1.80m to 3.00m
- Always protect your fully rigged set-up from rod chatter and damaged tip/butts
- Adjustable elastic shoulder strap
